

BELLA CO., LTD.

Make up forever

COMPANY INTRODUCTION

Established in the mid-1990s, Bella, Co., Ltd is currently one of the most capable and well-established permanent makeup machine manufacturers in Taiwan. Bella Co., Ltd. emphasizes ongoing research and development by introducing new technology in product manufacturing, and by inventing new categories of machines, skin care, and techniques.

With years of dedication, Bella Co., Ltd has become the leading manufacturer in the permanent cosmetic industry. Not only being one of the leading manufacturers, Bella has also developed into one of the successful exclusive distributors of Dolly's Lash and Eyelash Extension products. Our products are well recognized and accepted by the global market.

With our exceptional expertise and extraordinary innovation, Bella has combined the latest technology and trend concepts by providing the highest quality equipment and professional accessories to satisfy global customer's needs.

Most importantly, products manufactured by BELLA CO LTD all complied with the principles of GMP ISO 22716 standard.

You will be amazed and enjoy our dedicated products with the most competitive price. Bella guarantees total satisfaction from our services and quality.

In the future, we will continue to be an efficient and trustworthy provider of quality products at reasonable and competitive prices.

We will retain our services that are efficient, responsive, reliable, polite, and professional.

BEAUTY

CREATIVITY

Supersonic combines spirit of creativity, esthetics and crafts.

Unlike traditional PMU machines, Supersonic is an artwork with high efficiency operation interface. To build a world-class PMU system, BELLA insists on both esthetic design and product quality. We reintegrate the mechanism and structure to make the device more precise and stable.

Ultra light

The lightest BELLA PMU machine ever, 35g only! Innovated body design makes the Supersonic firm and durable. Furthermore, comfortable handling design and perfect body diameter proportional length make it an ideal business tool.

Splendor Needle System

Exclusive sheath design prevents physical contact to the needles during assembling, which develops a safer and more hygienic environment for permanent makeup treatment.

Excellent Quality

The device is equipped with an advanced motor to provide excellent functions.

Streamline

A streamlined body provides more comfortable control.

Speed control by buttons

Up to 10 speeds to control the machine more precisely.

BAPA-5320/6320

Supersonic

The New Contemporary Choice of Permanent Makeup

Light Weight

- 35g only, lightest ever!
- World-class sophisticated & esthetic design – High efficiency.
- Patented built-in design, comfortable for operating.
- Innovative button for up to 10 adjustable speeds.

RNA

ADVANCED REPAIRING ESSENCE

**Introducing RNA Advanced Repairing Essence
Color Guard after Eyebrows Permanent Makeup
Unveil Timeless Beauty with Every Glance**

Discover the ultimate secret to flawless, long-lasting permanent makeup with RNA Advanced Repairing Essence. Our cutting-edge formula is specifically crafted to enhance the longevity and vibrancy of your microbladed eyebrows. Ensuring that you wake up every day looking effortlessly stunning.

How to Use

Apply a small amount of RNA Advanced Repairing Essence to the treated area, such as your eyebrows. Use twice daily (during morning and night) to revitalize the cells and calm the redness.

CELL REPAIR

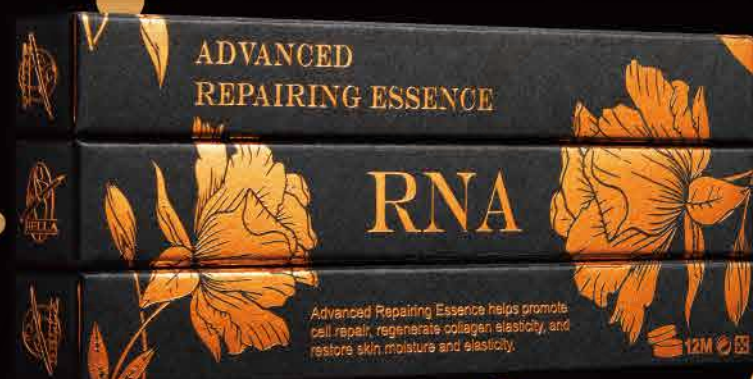

RNA Advanced Repairing Essence is your trusted partner in preserving the beauty of your eyebrows. It's specially designed to stimulate cells to create a faster repair pace.

ANTI- INFLAMMATORY

RNA Advanced Repairing Essence's remarkable anti-inflammatory feature ensures that your skin remains calm and comfortable, and alleviates redness and swelling symptoms throughout the healing process. Let your beauty shine confidently, knowing your permanent makeup will look impeccable and also reduce scar formation.

LONG- LASTING COLOR

RNA Advanced Repairing Essence includes color-locking technology that helps your permanent makeup stay true to its original shade, preventing fading and dullness. The color remains 85%-95% on your eyebrows after the treatment.

RNA Advanced Repairing Essence

Ingredients

- Ribonucleic Acid
- Wild Yam (Dioscorea Villosa) Root Extract
- Tremella Fuciformis Sporocarp Extract
- Natto Gum
- Sodium Hyaluronate
- Bis(Tripeptide-1) Copper Acetate

Sizes Available

- RNAA-0001
5 ml with lip gloss balm tube bottle

Permanent Makeup

Anesthetic & After Care

Sea Buckthorn

Lavender

Rose Hip

Chamomile

Shea Butter

Exclusive Healing Oil

BHAC-0003

Features

- Natural herbal extract essence, free of chemical ingredients. Gentle and eco-friendly.
- Isolate external irritation, quickly reduce the pain.
- Protect skin, soothe discomfort.
- Prevent the chap of skin, a boost of deep-down hydration.

Descriptions

Exclusive Healing Oil provides the best aftercare of the PMU procedure. Its ingredients comprised a variety of extract essence: Sea Buckthorn, Lavender, Rose Hip, Chamomile, Shea Butter. Provide excellent moisture, instant protection for effective soothing and regenerating of skin. Exquisite aluminum packaging makes it easy to carry and use.

Use

Apply on the skin and lips to bring back gorgeous luster. Instantly form an external protection layer for small wounds, scratches, or cuts. Helps the body to operate normally and heal the wounds.

Highly effective after the PMU procedure, helping to fasten the healing processes, so as to minimize scab and color fade. Can also use for daily moisturizing after recovery. Reduce dryness and peeling of skin.

Relief Gel

BHAI-0001

- Original professional formula that effectively controls pain and swelling after the skin is broken.
- Apply relief gel during the procedure will reduce bleeding and swelling instantly.
- Very effective pain control, works in 10 seconds.

Anesthetic Instant Numb

BHAG-0001

- An ointment form is used during the process. Instant ointment offers pain relief for intact skin.
- Safe to use on eyelids and lips before the procedure.
- Perfect for lips, eyebrows, and eyeliner applications.

Anesthetic Numfast

BHAH-0001

- A topical anesthetic that provides a profound numbing effect for superficially painful conditions, lasting for up to 45 minutes.
- The most effective product to reduce pain during the procedure.

Quick Stabilizer

BHAA-0001

- Used before and during the procedure.
- Recommended to apply by using cotton swabs over area before procedure.
- New formulated! Instant pain relief!

Microcaine

BHAJ-0001

- This topical anesthetic is a safe pH for application around eye area. (pH7.5 same as human tear)
- Tube package is hygienic and convenient to use.
- After the skin is broken, you can mix BBA-25 Microcaine with BBA-23 Relief Gel and apply to skin.

OEM/ODM Section

Bella, Co., Ltd is a highly professional and innovative company that is committed to total customer satisfaction.

Our extensive technical expertise and global resources ensure that we are well-prepared to meet all potential challenges and achieve excellence. We intend to grow our external partnerships by incorporating these values into our OEM/ODM business.

Our brilliantly skilled and experienced team, highly qualified technicians, industry experts, fully equipped manufacturing facilities, absolute quality control, and ample production capacity will ensure you receive the very best service.

Our exceptional expertise and substantial resources will provide our OEM/ODM customers with the highest quality of products and satisfaction.
If you would like to make any further inquiries about Bella's OEM/ODM services, please feel free to contact us!

Thank you for choosing Bella, Co., Ltd.

Training Course

Bella provides professional Permanent makeup sculpt techniques support and eyelash extension training courses.

The main idea for Bella's training course is to help and support our distributors and favorable customers to improve in their business. We help our customers to understand clearly how to establish business with Bella's products, and the training course is to popularize the new and advanced techniques of permanent makeup and eyelash extension.

Trainees are given individual counsel and correction for the problems found during the sessions. With or without experience, anyone can learn the techniques in the course.

Our PMU/ Lash Lifting training course included showing the trainees how to do all micro pigmentation and lash lifting correctly, and enhanced understanding of proper safety procedures. There are Basic courses and Advanced courses for you to choose from. Our Sculpt PMU techniques are a delicate creation that comes from the integration of embroidery and painting: We create an elegant and natural look in the field of micro-pigmentation.

Our customers will be professionally led through the training at our instructional facility. Contact us now! You can also be one of the experts in this beauty business!
